BOMOpen Salad Mix

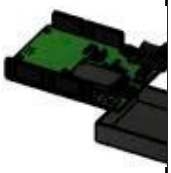

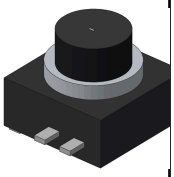

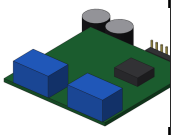

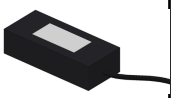

Rev:08.11.2026

By:Open Salad Mix team

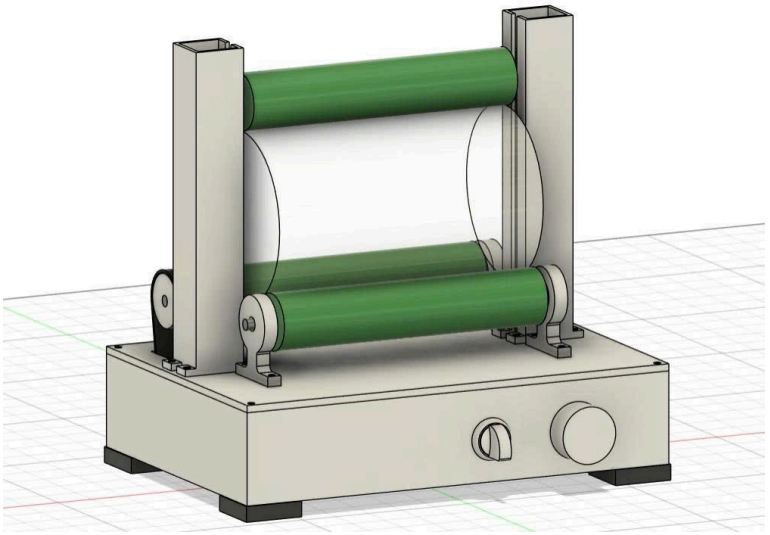

Rate:1 EUR = 28,672.48 VND

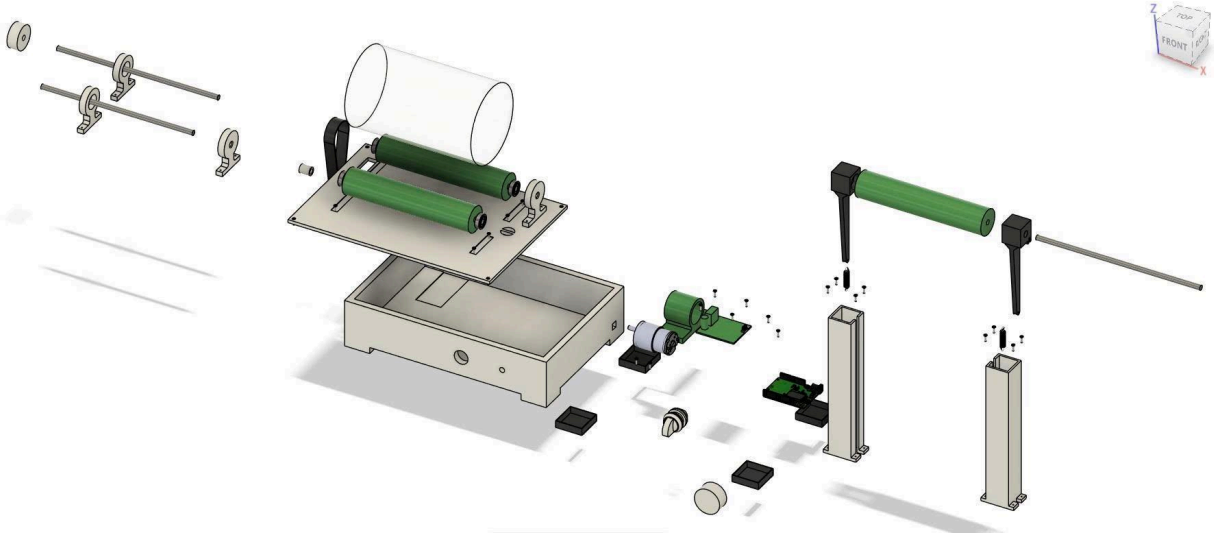

Part #	3D view	Part name	Qty	Part size	Material / process / model	Source Type	Unit price (EUR)	Total (EUR)
A. 3D-printed parts (FDM)								
P001		Base Housing	1	Dimension: 320mm x 220mm x 75mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Note: holes for selector, timer knob and cable	Designed	incl.	incl.
P002		Deck Plate	1	Dimension: 320mm x 220mm x 5.5mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Note: separate part; slots for lower roller position	Designed	incl.	incl.
P003		Motor Holder	1	Dimension: 80mm x 40mm x 49mm	Material: PETG / PETG-CF Process: 3D printed (FDM)	Designed	incl.	incl.
P004		Lower Bearing Holder	4	Dimension: 59mm x 50mm x 10mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Bearing seat for 608-2RS 2 per lower roller	Designed	incl.	incl.
P005		Upper Bearing Holder (long arm)	2	Dimension: 29.5mm x 29.5mm x 152.372mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Note: rests directly on Slider Holder in open position, no separate latch	Designed	incl.	incl.
P006		Spring Column / Slider Holder	2	Dimension: 52mm x 36mm x 225mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Note: covers the extension spring	Designed	incl.	incl.
P007		Roller Sleeve	3	Dimension: Φ40mm x 200mm	Material: TPU 95A Process: 3D printed (FDM) Colour: Green (as in CAD)	Designed	incl.	incl.
P008		TPU Feet	4	Dimension: 42mm x 42mm x 11mm	Material: TPU 95A Process: 3D printed (FDM) Colour: Black	Designed	incl.	incl.
P009		Control Knob (timer)	1	Dimension: Φ40mm x 20mm	Material: PETG / PETG-CF Process: 3D printed (FDM) Note: not listed separately in budget, confirm	Designed	incl.	incl.
P010		PETG / PETG-CF filament	1	Allowance (lot)	For parts 1–6, 9 Supplier: FabLab / local		19.18	19.18

Part #	3D view	Part name	Qty	Part size	Material / process / model	Source Type	Unit price (EUR)	Total (EUR)
P011		TPU 95A filament	1	Approx. 0.5 kg	For parts 7,8 Supplier: FabLab / local		7.67	7.67
							Subtotal A (EUR)	**26.86**
B. Mechanical purchased parts								
M001		Stainless Shaft	3	Ø = 8mm L = 240mm / 255mm / 260mm (1 pc each)	Material: Stainless steel Process: cut and deburr	Hardware	2.96	8.89
M002		Bearing	6	Φ22 - Φ8mm Thickness = 7mm	Model: 608-2RS Note: 2 bearings per roller Source: thegioiic.com 608ZZ (metal-shield variant); 2RS	Hardware	0.84	5.02
M003		GT2 Pulley 20T	1	Belt width = 6 Bore: Φ8mm	Mounted on motor Note: verify motor-shaft bore Source: linhkienx.com GT2 20T, 8 mm bore;	Hardware	0.87	0.87
M004		GT2 Pulley 60T	1	Belt width = 6 Bore: Ø8mm	Mounted on driven roller Source: sigmanortec.ro GT2 60T, 8 mm bore;	Hardware	2.41	2.41
M005		GT2 Endless Belt	1	Width = 6mm Circumference = 240mm	Source: no 240 mm closed-loop listing found; closest: thegioiic.com 2GT-280 (280 mm)	Hardware	2.44	2.44
M006		Extension Spring	2	Sold as pair	Model: ASRaymond T41270 Note: force and installed length require testing.	Sourced	6.84	13.67
M007		PET Jar	2	Ø120mm Height = 200mm	Material: PET, food contact Incl. cap / seal Note: 1 for the machine + 1 test sample Source: link to be added (no matching listing found yet)	Sourced	3.49	6.98
M008		Screw (pan-head, coarse thread)	40	Ø2.5mm Length = 12mm	Note: 30 required + 10 spare Pull-out test required	Hardware	0.09	3.49
M009		Misc. hardware set	1	Lot	Shaft spacers, set screws, washers, adhesive	Hardware	4.19	4.19
							Subtotal B (EUR)	**47.96**
C. Electrical parts								

Part #	3D view	Part name	Qty	Part size	Material / process / model	Source Type	Unit price (EUR)	Total (EUR)
E001		Controller	1		Model: Arduino Leonardo R3 (ATmega32U4) Source: hshop.vn original board	Hardware	5.46	5.46
E002		Rotary Selector	1		Type: 3-speed rotary selector Note: three operating-speed positions	Hardware	4.19	4.19
E003		Rotary Timer Switch	1		Type: physical rotary timer switch	Hardware	6.28	6.28
E004		Motor	1		Model: JGB37-520, 12 V, with encoder, 176 rpm Source: thegioiic.com JGB37-520 176 rpm	Hardware	6.98	6.98
E005		Motor Controller	1		Model: IBT-2 / BTS7960 Source: thegioiic.com BTS7960 43A module	Hardware	4.88	4.88
E006		Power Supply	1		Model: MEAN WELL GST60A12-P1J 12 V, 5 A, 60 W	Hardware	17.05	17.05
E007		Electrical Wire	1	L = 2000	Note: only wire is retained, no connectors	Hardware	2.44	2.44
E008		USB Cable	1		For Arduino Leonardo Programming / data cable Source: hshop.vn Micro-USB cable 30 cm	Hardware	1.22	1.22
E009		Resistor 10 kΩ	2	1/4 W, 5 %, axial	Value: 10 kΩ (brown-black-orange) Note: pull-up / pull-down for controller inputs Source: thegioiic.com 10 kΩ 1/4 W 5 %	Hardware	0.02	0.04
							Subtotal C (EUR)	**48.54**
							TOTAL (EUR)	**123.36**
							Budget (EUR)	200.00
							Headroom (EUR)	76.64

Reference views (CAD)

Notes

- Prices are converted from the VND budget at 1 EUR = 28,672.48 VND and rounded to 2 decimals, so rows may differ from the total by a few cents.
- Printed parts (P001–P009) have no individual price: their cost is covered by the filament lines P010 and P011.
- Removed (not in this BOM): latch/pin, latch-release link, main power switch, fuse + holder, closed-position microswitch, connectors / terminal blocks, motor suppression components.
